The dress comes first- then the hair style and makeup design

-Take a phone cam pic of you in your dress. Make sure its a head to toe shot. That way your stylist can see its color, bling and proportions without you having to describe it.

-Dress for your salon hair appt. in a blouse or top that buttons all the way up the front. You dont want to have to pull anything over your head after your hairs done

-Make your salOn appointment early as you can.Proms are typically in the evening, and Saturday appointments can be difficult to book without lots of notice.

-Work backwards from the places you have to be.

-The Prom's at 8pm, dinner's at 6:30pm, the limo pick up is 5:45pm, you have to be at your BFF's place by 3:30pm..Got the picture?

That means your hair appointment needs to be over and done by 2pm. Which means you need to arrive at the salon no later than 11:30am

If your going to
