

Brazilian Keratin Treatment

My course, frizzy, curly hair has been unmanageable my entire life. I have tried every “new” product there was on the market since I was a teen, but no to no avail. So when Regina and Ron told me about the “new” Brazilian Keratin Treatment I agreed to try it but did not have any expectations.

To my shock and delight, my hair is finally **NORMAL!** It is straight, sleek, and shiny, has moisture, and as advertised cut drying time down to ten minutes, and no flat iron! If it rains, so what! I don’t have to worry. This is the first product that has ever worked on my hair. I would recommend it to everyone and will do it again to maintain this look. I have had nothing but positive feedback from all those who know me and even those who do not.

Thank you
Ron, Regina, & Ultimate Image,

Janice G

Before

After

As a young girl heading towards adolescence, I would arrive at the hair salon excited and enthusiastic about an attractive, new hairdo. But I was always greeted by the stylists with shrieks of fear or streams of tears. Stylists back then were unable to handle the volume of hair. So as I grew up, I resigned myself to masses of frizz and huge hair, on ordinary days.

Joanne and Ron suggested I try the Brazilian Keratin Treatment that had tamed many a wild mop. Pleased and ecstatic do not begin to describe the life-altering transformation of my hair. As a working mom, busy business owner, and active woman who plays tennis and works out at the gym, my hair needs to be effortless while being attractive. It looks great! I can be showered, have my hair washed and hair styled in half an hour. I look stylish and I feel amazing. What a difference!

Thank You
